Recursive Data Structures: Trees

## *-- Tree Traversals --*

University of Virginia
CS 2110
Prof. N. Basit

Lab Activity – Tree Traversals

- For this tree, determine what would be the result of:
  - In-order traversal,
  - Pre-order traversal, and
  - Post-order traversal
- Submit your answers on Collab as a `.txt` file
- Work with your cohort; submit individually

On this binary tree, show:
in-order,
pre-order, and
post-order traversal

- When submitting your solution, be sure to label your responses clearly! (So we know which traversal you are performing)

Submit a .txt file that looks similar to this:

Pre-Order:

In-Order:

Post-Order:
